This lot of DPR contains total number of 44 ULBs spreading across the state. These ULBs have been segregated in two groups as per their location falling under the **earth quake prone Zone III and Zone IV**.

The cost of the construction may be reduced of those ULBs which falls under zone III. The safety measures can be taken in Zone IV considering the nature of the soil falling under respective seismic zones. As explained in PMAY HFA guidelines (Chapter 9), that different layout designs will be prepared to construct the building with innovative technologies and materials, green buildings using natural resources.

The table below shows the breakup of the DUs according to the seismic zone.

The DPRs for new projects are prepared by the hired consultants, the Committee referred to the scope of work mentioned in section-5 of the agreement with DPR/PMC consultants. The scope of work for DPR preparation states that "*Preparation of Beneficiarieswise detailed Architectural/Engineering designs, drawings & Estimates for all sizes of plots*" is to be done by the consultant. Also, the scope of work for PMC states that "*PMC will supervise the construction work to ensure adherence to the drawings, prescribed high standards of quality and timely completion of the project and verify and certify the progress of the work.*" In view of the above, the committee recommended that the implementation of both the above points should be ensured by the concerned Project Officer, DUDA through DPR/PMC consultants.
